WHO WE ARE

An energy partner, not just a supplier.

KGK Energy is a Zimbabwean-owned fuel supply and energy consulting company. For over a decade we have kept mines, farms, manufacturers, hospitality groups and transport fleets running with reliable bulk fuel, certified delivery and practical energy advice.

Our model is simple: own the fleet, train the operators, control the quality, and answer the phone — every time. That discipline is why our clients stay with us long after the first delivery.

MISSION

Reliable energy.

Deliver clean, certified fuel and practical energy guidance that keeps Zimbabwean operations productive — every day.

VISION

Zero downtime.

Be Zimbabwe's most trusted energy partner — known for safety, on-time delivery and honest counsel.

VALUES

Safety. Trust. Uptime.

Integrity, operational discipline and long-term client relationships shape every decision we make.

WHAT WE DO

Four services. One operating standard.

01

Fuel Delivery

Bulk diesel and petrol delivered nationwide — from 1,000 to 40,000 litres. Sealed loads, calibrated meters, on-time dispatch.

02

Gas Supply & Installation

Certified LPG bulk supply, cylinder exchange and full reticulation installs for hospitality, industry and homes.

03

Energy Consulting

On-site audits, fleet optimisation and cost modelling that reduce litres-per-km and energy spend across operations.

04

Sustainability Solutions

Biofuel blends, solar-diesel hybrids and emissions reporting — cleaner energy without disrupting operations.

OPERATIONAL CAPACITY

Built to deliver.

FLEET

Modern multi-compartment tankers, calibrated and sealed.

HOURS

24/7 emergency dispatch — including weekends and holidays.

VOLUMES

From 1,000 L top-ups to 40,000 L scheduled bulk supply.

COVERAGE

Nationwide dispatch from Harare with regional hubs.

COMPLIANCE

Certified operators, ZERA-aligned procedures, full insurance.

ACCOUNTS

Pre-paid, post-paid and contract supply terms available.
